

2001 LISTING OF OBJECT TECHNOLOGY BOOKS & MULTIMEDIA

While our experts have made their recommendations, there is still a need to provide the *Journal of Object-Oriented Programming's* readers with a comprehensive, categorized list. This updated bibliography includes more than 550 books and multimedia published from 1999 to the present. Suggestions, comments, and additions should be sent to Heather Darcy at hdarcy@101com.com. The entire listing is available on our Web site at www.joopmag.com.
